women and mother earth is an elegant book on women and nature in this treatise you
will feel the agony of women and the struggle of mother earth in the beginning of my
book i have mentioned my motive behind fusing two hot and current issues in one
treatise my first topic is on women empowerment and second topic will give you proper
thought based knowledge about our mother earth this is entirely a thought based non
fiction book and you will see minimal use of statistics or any other bookish stuff besides
the non fiction part of this book you will also find some short stories and poetries the
first poem is written by author himself and the other two sweet poems are written by
two beautiful teeny girls these short stories and poetries will work as a mood changer in
addition the sense behind inserting stories and poems in this non fiction is that this
book contains very serious and positive chapters so for adding more positivity in the
book i thought of an experiment via inserting some sweet teeny poems and heart
touching stories
